- **Mission & Vision**

Mission

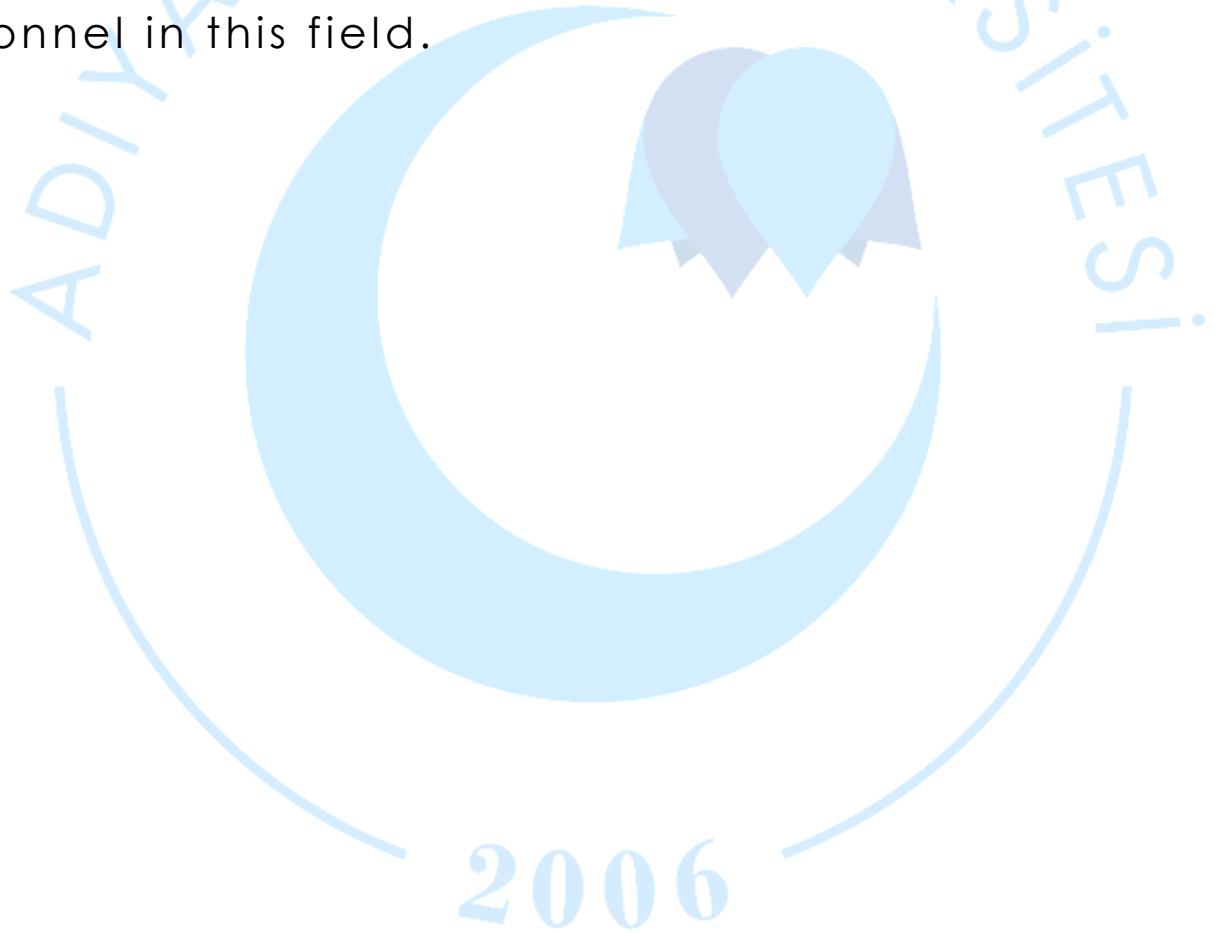

The aim of Occupational Health and Safety Department is to raise individuals who are able to conduct scientific research at the international level, who are self-confident, who can follow new developments who will gain places both in the science life of our country and in the society and business life.

Vision

Bringing professionals whose profession has their own knowledge, who can review their education life, apply a job, learn new things, and do job openings, into working life.

Importance of Departments of Occupational Health and Safety

With the Occupational Health and Safety Law No. 6331, the employment of personnel related to occupational health and safety (Occupational safety specialist, Occupational physician, etc.) in the private and public sectors has increased the need for trained personnel in this field.

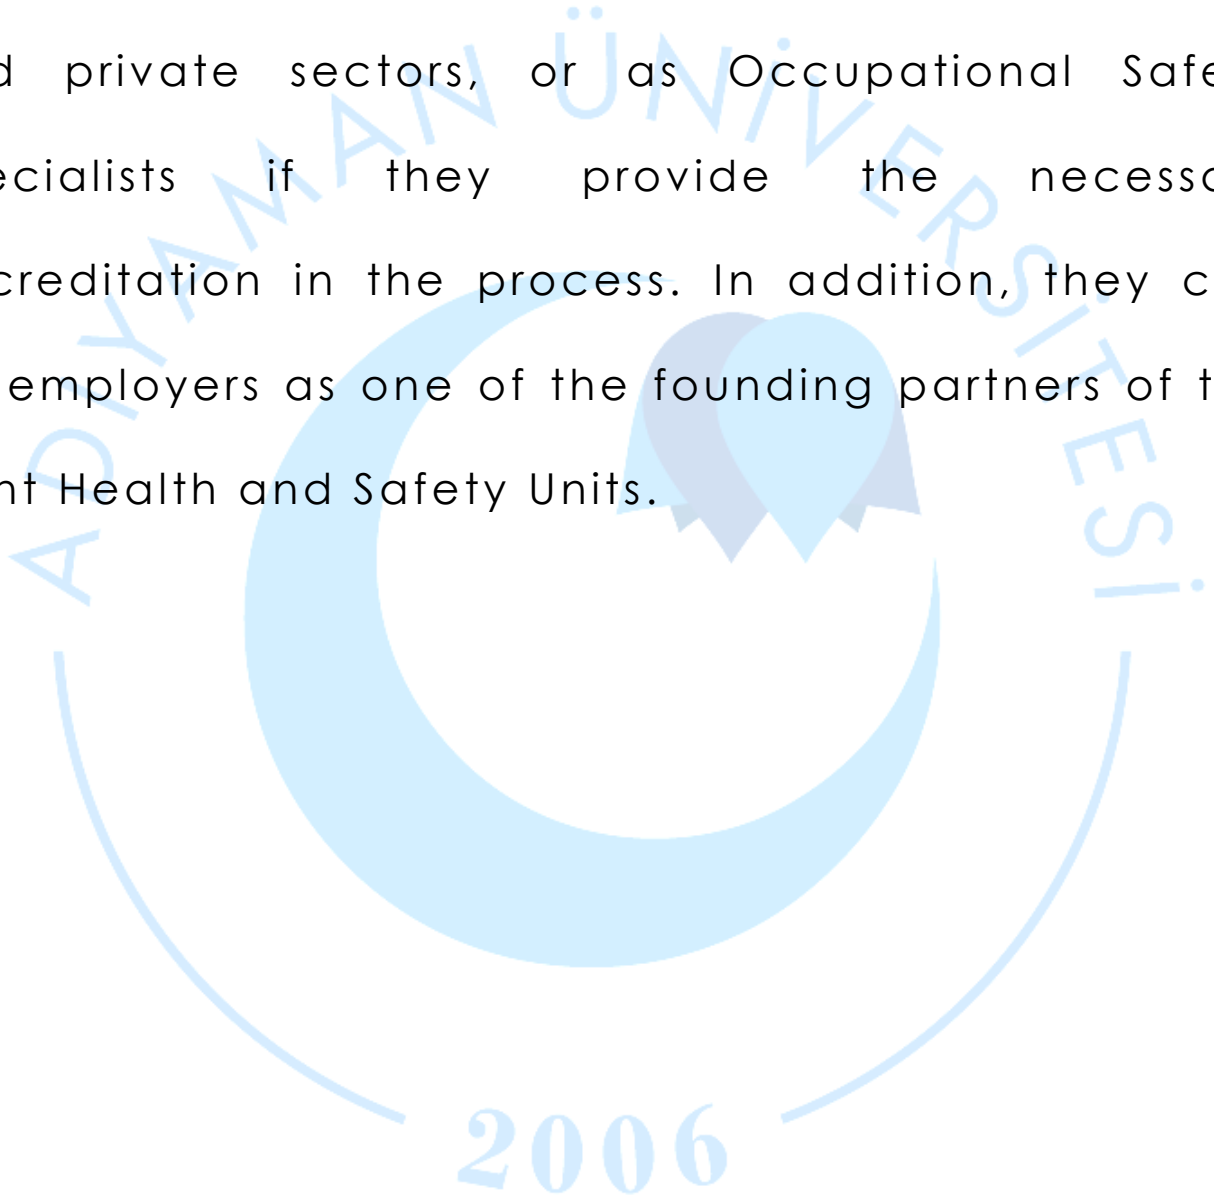

Why Department of Occupational Health and Safety?

Since occupational health and safety practices are legally mandatory, they have the opportunity to become the occupational safety specialist that the industry needs. The Ministry of Labor and Social Security also gives the "Occupational Safety Specialist" certificate to the candidates who are successful in certain trainings and the exam applied as a result of these trainings. Thus, our graduates can find the opportunity to work in the public and private sectors.

2006

Job Opportunities for Our Graduate Students

Our graduates can work as Occupational Safety Technicians in all workplaces belonging to the public and private sectors, or as Occupational Safety Specialists if they provide the necessary accreditation in the process. In addition, they can be employers as one of the founding partners of the Joint Health and Safety Units.

Highest and Lowest Placement Scores According to Central Placement

According to results of ÖSYS placement announces by the Directorate of Assessment, Selection and Placement Center in 2021, the student has been placed in our department with the highest score 311,453 while the student has been placed with the lowest 203,996 score. All of the 40 students quotas opened in total have been filled. 102 students continue their education in our department.

Activities

Technical trips are organized to various institutions and workplaces for our students to see the theoretical and applied courses on site. It is aimed to organize student meetings with people who work in the field of occupational health and safety and have industry experience, and to have more information about business life after graduation. In addition, our department participates in career days organized in certain periods and brings its students together with sector employers.
